

I am gratified that so many of you had the opportunity to participate in our first CHC webcast.

Our next program is scheduled for Thursday **AUGUST 5, 3:00 p.m. Eastern**. This webcast will feature Dr. Leighton Ku, lead author of the report "Strengthening Primary Care to Bend the Cost Curve: The Expansion of Community Health Centers Through Health Reform," recently released by the Geiger-Gibson/ RCHN Community Health Foundation Research Collaborative. Joining Dr. Ku to provide expert commentary will be Dan Hawkins, Sr. Vice President of the National Association of Community Health Centers. This report indicates that the expansion of community health centers will make a major contribution toward bolstering the capacity of the nation's primary care system and reducing the long term growth in health care costs.

To register, please click on this link to the registration page: www.CDNetwork.org/RCHN

We hope that you will be able to join us for this important event, but note that the webinar will be recorded and archived so that you may listen to it at a later date if you are unable to participate.

As always, our objective is to continue to advance the dialogue on the ongoing critical importance of CHCs and support CHC-related research and programming. I hope that you will find the webinars enlightening and useful, and look forward to your participation and comments.

Julio Bellber
President and CEO
